

Actionable Points of DARE/ICAR of the meeting held under the Chairmanship of Minister for Agriculture & Farmers' Welfare, Rural Development and Panchayati Raj on 27<sup>th</sup> June, 2019 to review export of Agriculture and allied products.

- a) Focus on productivity enhancement for creating exportable volume of Agriculture and allied products.
- b) Focus on Introduction of best technologies in the world on quality up-gradation, standardization, reduction of cost of production, storage and transportation, optimizing value addition, packaging, branding, etc.
- c) Identify Pre harvest and post-harvest intervention, area expansion, value addition possibilities.
- d) Deficiencies in current agronomic practices are to be identified and Good Agriculture Practices(GAP) are to be implemented.
- e) Difficulties hindering agri-exports should be identified and taken up with the concerned departments/agencies for early redressal.
- f) Challenges concerning APMC Act and other Acts, in certification systems, rules and procedure etc should be addressed on priority basis in close coordination with the DoC.
- g) Scientific analysis should be done to assess ground water requirement of various agro products. →
- h) Identify the agro products responsible for rapid depletion of ground water level.
- i) Identify exportable surplus to be produced with less water by increase in productivity. Water resources should be dove tailed with production.
- j) Suitably incentivize Farmers to reduce ground water consumption for agriculture production.
